

PRESS RELEASE

Altdorf – Germany / October 2023

Martin Schürmann becomes Managing Director of the STEINL Group

With effect from 01.01.2024, Martin Schürmann will manage the business of the STEINL Group together with Peter Steinl and Reinhard Danzer. He will be responsible for the injection molding, automation and dosing technology activities within the group and is going to expand the business strategically.

The STEINL Group, www.steinlgroup.com, consists of seven companies specializing in rubber and plastics machine engineering, automation technology, bioplastics compounding, industrial sealing and bonding technology, and metal punching and roll cutting technology.
